THE McCARTHY SPEECH

The Sheboygan Press,
Dear Sir:

Sister Bay, Wis., Oct. 28, 1952

All those who listened in on Senator McCarthy's radio attack on Governor Stevenson must have been thoroughly disillusioned. For his vague if not vacuous assertions rested largely upon some temporary association with Communists several years ago when Communist Russia was our invaluable fighting ally without whose effective armed assistance, Hitler have won his war for the conquest of the world.

At that time there was no reason whatsoever to even surmise that, after the war against Hitler was won, that Russia would break her solemn promises to us and our other Allies and set up the economic unrest that might enable communism to politically penetrate neighboring countries.

General Walter Bedell Smith, General Eisenhower's principal lieutenant in our invasion of Europe and also a supporter of Eisenhower, has just stated before a congressional committee that, "If our next President, whether he be a Democrat or a Republican, does as effective work as the Truman administration has done in driving Communists out of our governments, our country will have nothing to worry about." General Smith is the head of our Central Intelligence agency. His statement should be enough to emphatically answer and convince any sensible American of the absurdity of McCarthy's baseless charges.

Now here is what the official Russian Communist newspaper, Pravda, recently said about our American President:

"In what way is President Truman, that sanctimonious hypocrite, perpetrator of so many bloody deeds in all corners of the world in post war years, instigator of murderers, traitors and marauders, today, murderer of Korean women and children, better than the mad Fuehrer?"

Quite evidently Stalin and our Joe McCarthy stand united in their hatred of President Truman and also of Secretary Acheson who was the author of the United Nations Plan to hold back any further territorial aggression by militant communism. However Joe Stalin has a far better reason for hating Truman than Mc Carthy has. Stalin's reason is that it is President Truman, by no means McCarthy and his political ilk, who stands before the civilized world effectively thwarting the Communist Plan for world conquest through further territorial aggression.

Yours truly, HENRY C. ANDERSON
